Contracted date of delivery	M36 – December 2025
Actual date of delivery	February 2025
Partner responsible	EHRA
Partners contributing	FRG/C-EHRN, EuroNPUD, DPNSEE
Document status	Final

Background

The aim of Work Package 5 of the EU4Health BOOST Project is to strengthen and consolidate existing networks of harm reduction service organisations to support and boost the implementation of community-based and community-led best practices in the field of HIV, viral hepatitis, STIs - and where relevant TB - prevention, treatment and care for people who use drugs at European, national and local level.

One of the deliverables of this work package is an Advocacy Video, in which the main needs in the area of harm reduction are presented from a community perspective.

The Advocacy Video

This video is available here:

<https://www.youtube.com/watch?v=PncsHNzD6RE>

The video contains contributions from:

- Portugal
- Germany
- North Macedonia
- Romania
- Spain

The video addresses the following issues:

- Harm reduction and specific populations, such as women and migrants
- The need for sustainable funding
- [The BOOST Advocacy Strategy](#)
- The importance of appropriate treatment protocols
- The role of BOOST for the support of local harm reduction organisations

Dissemination

The BOOST project advocacy video will be disseminated through multiple channels to maximize its reach and impact. It will be featured on the BOOST and Correlation websites, and partner organization websites, as well as shared across social media platforms like Facebook, LinkedIn with the hashtags. To further amplify its visibility, the video can be presented at key events, including the upcoming partner meeting in Athens and international conferences.
